

K-Love is an amazing and uplifting listener supported station. I live in a community of about 65,000 people and believe that this is the type of station that benefits our community. We have a lot of listeners in the area. If this station were to go off of the air to a LPFM station, I know that the community would be affected negatively. We need positive and encouraging words and music to keep us together. K-Love does this for us. Keep America strong. Keep K-Love on the air. Thanks for listening! Jo Johnson
